*ABOUT:* Lady Sargeant is a creative marketplace founded by Cory Sargeant featuring thoughtful and playful products for the conscious consumer. Lady Sargeant started as a vintage jewelry destination back in 2017 and evolved into a shop featuring Sargeant's own products and designs.

Our latest project, SAY IT DO IT, was carefully crafted during the pandemic and stems from the desire to connect more deeply with friends and families after a year of social isolation. The 52 questions and challenges are meant to help players open up emotionally with others in a group setting, while also allowing for play and fun. SAY IT DO IT can be played in a multitude of social environments -- on a Zoom call with close friends, at a family picnic, on a first date, during an office retreat, in a train car with a cute stranger -- the possibilities to connect are endless.
